

Everything for the Stone Industry

Keep dry...Stay warm!
with Weha Work Aprons
& Work Sleeve Protectors

Weha Heavy Duty Waterproof Grey Apron
Super Comfort Apron #137468

Weha's latest Apron is made for comfort. With 2" wide cross Clip Straps, the Weha Apron fits comfortable on the shoulders and not on the neck.

The Weha Apron fits comfortable under the arm and around the body. This keeps it close to the body from arms down to the legs. This provides easier movement and best water protection.

At 46" in length, it fits the average fabricator just perfectly. This length covers the boot well but still leaves enough space from the floor to keep it from touching

The Weha Apron with its crossed straps in the back truly provide the best comfort for all day wear.

With a thicker, more durable material, the Apron will last 3-5 times longer than most aprons on the market.

The interior of the Weha Apron is not rough or scratchy for additional comfort. to your feet.

Weha Black Rubber Sleeve Protectors
#137490

Weha Water Proof Sleeve Protectors are the latest version in full sleeve water protection. The soft expandable rubber near the wrists make these sleeves super comfortable and keep the water from coming up the arm.

Also, the water proof sleeve protectors are made to come all the way to the shoulder for full arm protection. Add the adjustable strap that goes behind the back and the sleeves will stay fully up on the shoulder.

Combine this with the Weha Apron and you will stay fully dry from the shoulder/chest, all the way down to your feet.
