

Weha Heavy Duty Remnant Rack 2-60" Base & 20-36" Posts

The Weha Heavy Duty Stone Remnant Rack is excellent for storing cut pieces, vanities, and remnants of all kinds. This isn't the standard light weight remnant rack that fabricators are used to seeing around.

The Weha Heavy Duty Remnant Rack is stout, sturdy, and strong enough to store all thickness remnants. Each 36" post weighs almost 3 1/2 lbs each! This is Heavy duty steel. And the base is equally as strong to store entire row of remnants.

Weha heavy duty stone storage remnant racks are outstanding for granite, marble, engineered stone, travertine, Dekton, and all kinds of natural stone.

The Weha Remnant Rack base rails are 60" long with 13 open holes per side for the poles. The Remnant Rack comes with 20 36" poles. Painted with safety yellow powder coated paint for clear visibility during loading, unloading, and storage.

Remnant Rack includes:

- 2-60" base rails
- 20-36" poles
- Max Load Capacity of 2300lbs between posts.
- Max Load Capacity per set for 60" 8,000 lbs
- Weight per set:140lbs

Weha Stone Counter Top Fabrication Work Table 78" x 25" x39"

Weha Granite Fabrication Work Table has all the functions necessary for finishing granite, marble, quartz, counter tops in granite, marble, Quartz, Quartzite, Engineered Stone, Dekton, Lapitec, and other ceramic and porcelain centered stone materials. The 2" wide fabrication work table has 4 locking swivel wheels for easy maneuvering in the shop. At 78" long, the Weha granite work table can easily support full length counter tops, allowing work to be done on 3 sides at any given time. The inside support rails have an opening of 22" x 33" in the middle of the fabrication work table. This opening allows full cutting and polishing of sink bowls and vanities. The Weha granite fabrication work table has a solid load capacity of 882 lbs. This is more than enough to support any stone counter top. Painted with safety yellow powder coated paint, this fabrication work table will last for years. The Weha 25" fabrication work table comes in 8 pieces plus the 4 wheels. Assembly is fast and easy. Shipped broken down for cheaper shipping rates.

Specifications for the Weha 25" Granite Fabrication Work Table:

- Load Capacity: 882 lbs
- Length: 78"
- Width: 25"
- Inside Width: 22"
- Height: 39"
- 33" Center for bowl cutting and polishing

Weha Stone Counter Top Fabrication Work Table 78" x 20" x39"

Weha Granite Fabrication and Lamination Work Table has all the functions necessary for polishing, profiling, processing vanity bowls in granite, marble, Quartz, Quartzite, Engineered Stone, Dekton, Lapitec, and other ceramic and porcelain centered stone materials. What makes this table so great is the width at only 20". This width is perfect for building up and laminating mitered edges. At 20", the Weha Lamination work table allows the counter top to be centered and both sides of the counter top have about 3" hanging off. This gives opportunity to fabricate both sides of the countertop without ever having to move the top. Excellent when both sides of a top need to be polished. This allows up to 2 fabricators to polish a top at the same time if necessary. The 20" wide fabrication work table has 4 locking swivel wheels for easy maneuvering in the shop. At 78" long, the Weha granite work table can easily support full length counter tops, allowing work to be done on 3 sides at any given time. The inside support rails have an opening of 16.75" x 20" in the middle of the fabrication work table. The Weha granite fabrication work table has a solid load capacity of 882 lbs. This is more than enough to support any stone counter top. Painted with safety yellow powder coated paint, this fabrication work table will last for years. The Weha 20" fabrication work table comes in 8 pieces plus the 4 wheels. Assembly is fast and easy. Shipped broken down for cheaper shipping rates.

Specifications for the Weha 20" Granite Fabrication Work Table:

- Load Capacity: 882 lbs
- Length: 78"
- Width: 20"
- Inside Width: 16.75"
- Height: 39"
- 33" Center for bowl cutting and polishing
