Donkey Quartz Face Polish Surface Polishing Pad for Quartz, Engineered Stone, Marble, Granite

The Weha "Donkey" Pads are Velcro backed Quartz Face, surface polishing pads designed specifically to repair the surface of quartz and engineered stone.

The Weha Donkey Quartz Surface Polishing Pads will blend the texture of the polish to make it match perfectly with the rest of the top.

Outstanding for quartz scratch repair, blending seams, even polishing edges.

The Weha Donkey pads also work incredibly well on repairing marble etch marks and resurfacing marble counters for repair.

The Weha Donkey Quartz repair polishing pads is a diamond sponge system that holds a lot of water. This works amazing when doing repair work inside a home where water is limited.

Available in 4", 5", 6"
