

Everything for the Stone Industry

Weha Hinged Stone Waste Container

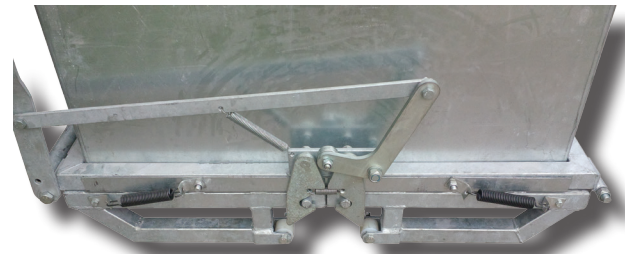

The Weha Stone Waste Container helps to solve the waste problem in the workshops. The Weha Stone Waste Bin is suitable for any fork-lift truck and for any length of fork.

Simply fill the Weha Stone Waste Container Trash Bin with granite and stone scraps. When full, pick up from the top with the forklift, lift it over the dumpster and pull the side lever. The bottom of the Weha Waste Container will open up to empty the waste from the bottom.

Made of heavy gauge galvanized steel, the Weha Stone Trash Can will last for years and years.

The Weha Stone Waste Container is shipped collapsed down to reduce the extra expense of shipping costs. Assembly instructions included. Very easy to assemble.

- Length: 36"
- Width: 36"
- Depth: 24"
- Total Weight: 348
